Tiruppur, Tamil Nadu

Profile

Results-driven Computer Science & Engineering undergraduate entering my 3rd year, with practical experience in Java development and object-oriented programming. Clean track record in competitive problem-solving, highlighted by participation in national-level hackathons like VISA @ IIT Madras. Passionate about building scalable software applications and optimizing data structures

TECHNICAL SKILLS

- Languages: Java, Python, C
- Frontend: HTML, CSS
- Tools: GitHub
- Core Concepts: OOP, Basic Data Structures

Education

B.Tech in Computer Science & Engineering -Amrita Vishwa Vidyapeetham, Nagercoil (2024 – Present
CGPA -7.0%
Higher Secondary Education - Sri Chaitanya Techno School, HSR Layout, Bangalore
12th percentage - 72%
10th percentage - 83%

Achievements

Participant - VISA 24-Hour AI Hackathon (IIT Madras)

· Participant - AI Safety Conclave 2025

Student Poster Presentation - IEEE ICRM 2025

Languages

English

Tamil

Projects

·Automatic Door Locking System - Designed a smart security-based locking system with automated access control(.jun - oct ,2025)

E-Medical Management System - Developed a system to manage patient records and appointments efficiently.(jan-Apr, 2025)

TCU Club Page - Built a responsive web page using HTML and CSS with structured layout.(jan-Apr,2025)

Music Player Application - Developed a basic music player with play, pause, and track management features.(Sep-Dec, 2024)

Internship Experience

Java Development Intern - Hanodale Solutions Pvt. Ltd.

(Nov 17, 2025 – Dec 2, 2025)

Worked on Core Java fundamentals and OOP concepts.

Implemented Exception Handling and Collections Framework.

Practiced Java I/O, File Handling, and Basic JDBC operations.

Completed real-time coding tasks during internship.
